Reasons For Allowance

The following is an examiner's statement of reasons for allowance: The closest pertinent prior art of record is US Patent Number 5,879,799 to Zafiroglu and US Patent Number 5,436,075 to Sawko. Zafiroglu teaches a stitchbonded nonwoven fibrous layer and a pattern of stitches formed with stitching threads. At least one of the stitching thread consists essentially of an organic polymeric contractable yarn. Zafiroglu fails to teach or suggest the inclusion of a nonfibrous layer of polymer or metal which is contracted via the stitching process. Sawako teaches a bonded fabric with patterned stitches and includes a non fibrous layer of metal; however, the reference fails to teach or suggest the use of an organic polymeric contractible yarn. The reference alone or in combination are not seen to teach the combination as claimed in present claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
